

Into the Fire (Scarlet Pimpernel)

SOLO (Kambri Smith)

ESTHER walked into the CASTLE
With HER FAITH clutched in HER hand
SHE was only a GIRL, but SHE knew
Someone must take a stand

There will always be a valley
Always mountains one must scale
There will always be perilous waters
Which someone must sail

Into darkness, into danger
Into storms that rip the night
Don't give in, don't give up
But give thanks for the glorious fight

SOLO (Evelyn Sweeten)
You can tremble, you can fear it
But keep your fighting spirit alive GIRLS
Let the shiver of it sting you
Fling into battle, spring to your feet GIRLS
Never hold back your step for a moment
Never doubt that your courage will grow
Hold your head even higher and into the fire we go

SOLO (Kambri S)
Are there mountains that surround us?
Are there walls that block the way?
SOLO (Kambri + Piper Duquette)
Knock 'em down, strip 'em back GIRLS
And forward and into the fray

SOLO (Reagan Galli)
Into terror, into valour
Charge ahead, no, never turn
Yes, it's into the fire we fly
AND THE PRIZE WE WILL EARN!

(Kambri, Evelyn, Reagan, Lacey, Ariana)
Someone has to face the valley
Rush in, we have to rally and win GIRLS
When the world is saying not to
YOU KNOW YOU HAVE got to march on, GIRLS
Never hold back your step for a moment
Never doubt that your courage will grow
Hold your head ever higher and into the fire we go

SOLO (Lacey Pettersson)
Let the lightning strike
Let the flash of it shock you
Choke your fears away
Pull as tight as a wire
Let the fever spike
Let the force of it rock you
We will have our day, sailing into the fire

ALL GIRLS
Someone has to face the valley
Rush in! We have to rally and win boys
When the world is saying not to
YOU KNOW THAT YOU HAVE to march on, boys
Never hold back your step for a moment
Look alive! Oh, your courage will grow
Yes, it's higher and higher and into the fire, we go

(Kambri, Evelyn, Reagan, Lacey, Ariana, Piper)
Into fire!

ALL
Onward, ho!
