

Together Forever

Well it's hard to say goodbye and let go
And it's hard to see it end
When the memories we've just made
May never happen again.

But it's harder for time to ever erase
The together times we've shared
So, when we're apart remember
All the love we shared together
And for all this love
Thank the Lord above who showed us the way

That, We can be together forever someday
We can be together forever someday
We can be together forever someday
